DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3, 4, 6 and 7, drawn to a method for crossing flowering plants based on their pigment genotypes, comprising new flower color utilizing new genotype $H^X H^X \cdot Pg/pg \cdot Cy/cy \cdot Dp/dp$.

Group II, claim(s) 2, 5 and 7, drawn to a method for crossing flowering plants based on their pigment genotypes which creates new flower color utilizing genotype $D/d \cdot E/e \cdot H^X H^X \cdot Pg/pg \cdot Cy/cy \cdot Dp/dp$.

Group III, claim(s) 8 and 9, drawn to a quick reference cap guide which determine the combination of crossing plants based on flower pigment genotype for creating a flower color.

Group IV, claim(s) 10 and 11, drawn to use of the quick reference cap guide of multiple allele.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions are linked by the technical feature of crossing plants based on flower pigmentation.

However, this feature is not special because it does not constitute an advance over the prior art. Oud et al (Euphytica 84: 175-181, 1995) disclose methods of crossing plants

based on flower pigmentation (see page 176, 2nd column, 1st and 2nd paragraphs of 'Materials and methods').

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
